Pedestal and Wall Mount Fans Heavy-Duty

The Master® high velocity pedestal and wall mount fans deliver fresh air quickly to localized spaces. Great for spaces with or without air conditioning, these pedestal fans can take the edge off of your monthly energy bill by allowing you to use the A/C more sparingly. And with our efficient direct drive design, you'll conserve even more electricity. It also has three speed settings and features a heavy-duty, all-metal construction. Whether it's a warehouse, garage, barn, or a crowded summer gathering, these fans cool all types of spaces efficiently.

- Great for garages, barns, or workshops, or outside events
- All metal construction
- Industry leading high airflow for the best CFM
- Industrial motor, easy installation, steel-coated safety grille, and more
- 1-year limited warranty

Belt Drive Barrel Fan Heavy-Duty

When you're in the market for the most powerful cooling solution, Master has you covered. The Master Heavy-Duty Industrial Barrel Fan will handle the toughest demands, no matter what you throw at it. With ultra-thick, OSHA-compliant guards and barrel, this fan is made to last and take the abuse of any industrial setting. Rock-solid wheels and a built-in handle give you the portability you need, and the fuse-protected accessory outlet lets you daisy chain multiple fans for maximum cooling. But that's not all: The matched belt-drive motor and blades use our unique design for the quietest operation and the highest achievable levels of airflow. Whether it's a workshop, warehouse, garage, outdoor area, or other large space, you can count on these fans to get the job done. Master—built for power.

- Great for warehouses and large outdoor spaces
- All metal construction
- Industry leading high airflow
- Low-noise, belt-drive operation; solid wheels; OSHA-compliant safety guards; and more
- 1-year limited warranty

Oscillating Fans High Velocity

The Master® MAC-30POSC and MAC-30WOSC oscillating fans deliver fresh air quickly to localized spaces. Great for spaces with or without air conditioning, these oscillating fans can take the edge off of your monthly energy bill by allowing you to use the A/C more sparingly. And with our efficient direct drive design, you'll conserve even more electricity. They also have three speed settings, 72° oscillating air flow, and feature heavy-duty, all-metal construction. Whether it's a warehouse, garage, barn, or a crowded summer gathering, these fans cool all types of spaces efficiently.

- Great for garages, barns, or workshops, or outside events
- All metal construction
- Industry leading high airflow for up to 6000 CFM
- Industrial motor, easy installation, steel-coated safety grille, oscillating fan head, and more
- 1-year limited warranty

WayCool Portable Evaporative Cooler 1HP with Oscillation

WayCool® portable evaporative coolers use the natural cooling process of evaporating water to reduce temperatures up to 30 degree F at a fraction of the cost of air conditioning. WayCool blows cooled air in a focused narrow stream at high velocities over long distances to provide greater cooling for employees, customers, guests, equipment and livestock both indoors and outdoors.

- Oscillating outlet for greater coverage up to 4700 sq. ft.
- Approximately 75 percent lower energy consumption and 50 percent less expensive than the equivalent capacity portable air conditioner
- Automatic low-water level shut-off to prevent pump damage
- Built-in water reservoir for standalone use or connect to a water hose for continuous use
- Specially treated cellulose evaporative pads for long pad life

Blower with Attachable Duct Canister and 25ft Flexible Duct

The ideal work-horse, the 8" blower is perfect for small confined spaces, such as manholes and sewers. This compact blower delivers maximum airflow for a safe, comfortable and controlled work environment. The blower can operate independent of the canister. The canister is ergonomically designed and keeps 25' length of ducting contained, clean, and dry for ease of transport and longer life.

- Best in class airflow of 930 cfm for personal safety
- Dual walled polyethylene housing design, delivers exceptional durability and long life
- MASTER yellow for high visibility and increased safety
- Rubber draw latch for easy tool-free attachment to canister
- Stackable for efficient storage and work space
- 1 year limited warranty

215K BTU Kerosene Forced Air Heater with Thermostat

We know you need your equipment to work as hard as you do. Trust Master's 215,000 BTU Kerosene/Diesel Forced Air Torpedo Heater to get the job done. This versatile, multi-fuel heater will warm up to 5375 square feet of your shop, barn, construction site, or wherever you need powerful, dependable heat. This high output heater's time-tested design includes Master's rigorously tested steel construction, cold-start system, plus the built-in convenience and safety features you expect from Master products. Master – built for power.

- Heat up well-ventilated constructions sites, workshops, farm buildings, or garages
- Made of rugged steel for years of use
- Built-in air pressure gauge and thermostat for efficient operation
- Fuel gauge, so you know when it's time to re-fuel
- 5-point safety system, including high temperature limit shut off, flame-out fuel cut, and thermocouple

STANLEY Heavy-Duty Electric Heater, 1500W

The STANLEY® electric fan heater has a 1500-watt capacity with two heat settings, and a fan only option. This upright heater with slim design delivers clean, quiet heat. Ideal for sheds, workbenches, and desks, the STANLEY electric heater is light weight, portable, and easy to use. It features an adjustable thermostat and a safety tip-over switch.

- POWERFUL: 1500 Watt capacity heats up to 165 sq. feet
- VERSATILE: Two (2) heat settings with adjustable thermostat let you choose how much heat you need
- FAST HEAT: Heats up in seconds to heat your space
- SMALL FOOTPRINT: Space saving design easily fits on a desk, workbench or anywhere in the home
- SAFE: Built-in tip switch immediately turns off heater if is bumped from its base
